

# This is the first frame

This frame contains code that:

- ▶ Will be visible in all the slides of the frame like this line and everything above this
- ▶ Will be visible in all slides inside the frame.
- ▶ Will be the same from a slide to the next slide.
- ▶ We can refer and link to slide 2 of the next frame (labeled 'frameB') by writing  
`{frameA}{\beamerbutton{I'm on the second slide}}`  
in that frame and calling it from here by the command:  
`\hyperlink{labelB2}{Press here}`

Press here (to skip slide 1 of frameB)

# Second frame

## First and only Slide

I'm on the second slide
